Corrective Color & Trend Class

Hands-On-Experience

This is a course that will focus on the challenges of color correction, why & how they happen, and what to do to correct them. It will cover repigmentizing, decolorizing, and formulizing to help correct the four challenges of hair, to light, to dark, to warm, and to cool. We will follow up with a trend cut and color from our latest trend for 2010.
