

The après-spa essential

Oh, the price of beauty. Let's just say not everything that takes place inside spa walls is a walk in the park. But nothing puts that waxing, peeling or deep-tissue adventure behind a body faster than a little bit of cool blue heaven to help redness subside and tissues recover.

Post-surgery survival tool

Don't be fooled by their glam, un-clinical look. TheraPearl was designed by a no-nonsense M.D. for optimal analgesia and healing using heat or cold – the most natural, effective and smart way to cheer on the body's own rehab skills.

Doctor Designed
Hot & Cold
Therapy in One Pack

Conforms to relief
area when frozen

Doesn't leak or
drip during use

Kid-friendly,
non-toxic & reusable

Freeze or microwave

TheraPearl™
It's Ice. It's Heat. It's Smart Relief.
